

Quality Policy

- a. Optimet aims to provide products and services that meet its customers' demands for reliability and quality which in turn will lead to increased business scope and an improved ability to compete in international and domestic markets.
- b. Optimet is committed to the quality of its products and services. To achieve this, Optimet maintains a quality assurance that follows its products, processes and services throughout all production stages until final delivery to the customer. To this end, the management must identify the quality needs and then allocate the appropriate resources, including skilled employees, supervise and conduct internal audits and quality activities.
- c. All Optimet employees and its suppliers are responsible for the quality of the products.
- d. Optimet's products and operations will be in accordance with the law, accepted international standards, and regulations.
- e. The information required for proper implementation of the processes will be available to all employees. Smooth flow of information and instructions within Optimet is guaranteed, as well as an effective training process for new employees.
- f. The management will set measurable quality, in order to guarantee the constant improvement of the processes that influence the quality of products. These indices will be included in the management report and the quality objectives will be updated accordingly.
- g. The management is committed to implementing the quality policy and ensuring that all systems in the company are organized to facilitate the full implementation of this policy. The company's management is responsible for preparing, implementing and maintaining a quality management system that comply with the ISO 9001
- h. The management is committed to ensuring that this policy is known and clear to all employees, and is implemented at all levels of the organization.
- i. This policy will be published on Optimet's website and will be distributed to all employees and sub-contractors.
